Broiler-Type Eggs Set in the United States Up Slightly

Hatcheries in the United States weekly program set 222 million eggs in incubators during the week ending December 8, 2018, up slightly from a year ago. Average hatchability for chicks hatched during the week in the United States was 81.9 percent. Average hatchability is calculated by dividing chicks hatched during the week by eggs set three weeks earlier.

Broiler-Type Chicks Placed in the United States Down 1 Percent

Broiler growers in the United States weekly program placed 182 million chicks for meat production during the week ending December 8, 2018, down 1 percent from a year ago. Cumulative placements from the week ending January 6, 2018 through December 8, 2018 for the United States were 8.91 billion. Cumulative placements were up 1 percent from the same period a year earlier.
